

Dear Parents

Please see below the information for our online learning during lockdown. All our learning is linked to our long-term rolling programme as far as we possibly can. There will be differences across our federation because of the make-up of our class structures being slightly different.

Year 2 to Year 6 will have pre-recorded English and Maths 4 days per week. On those days they will also have an afternoon online live session with a teacher to support any issues from the lessons that day. On the 5th day we are providing links to Oak Academy Science, Geography and RE that link to our units of work. The children should only do one lesson per week per subject from the links.

Reception and Year 1 children will have 3 days of pre-recorded Phonics and Maths sessions followed by an afternoon online live session with a teacher. On Thursday and Friday, they will have a link to Oak Academy Maths, Geography/KUW, Science and RE.

Please see below your child's timetable. Key worker children in school will be following this time table too. Should you have problems accessing TEAMS or Oak Academy Mrs Barmby and I will be looking at the BBC resources next week as another option.

The links to the relevant units of work for Science, Geography and RE are pasted below.

Your child's teacher for online sessions will be Miss Dales and the additional adult will be Mrs Millard. Miss Dales is the class teacher from Swallows at Gedney Hill. Mrs Barmby and I will also be joining some of the sessions.

Federation Year 5				
Monday	Tuesday	Wednesday	Thursday	Friday
RE Oak Academy	English TEAMS	English TEAMS	English TEAMS	English TEAMS
Geography Oak Academy	Maths TEAMS	Maths TEAMS	Maths TEAMS	Maths TEAMS
